Subject: RE: Regional review & approval with modifications of Illinois program workplan documents

We are considering a few additional changes to the ERG. Nothing major--just some actions we currently take that were not explained well in the ERG you reviewed earlier this year. Our legal staff is reviewing that now. As for training, the ERG was discussed at the March 21 and 22 training sessions--staff are aware of it. We plan to send the final version to staff once it has been approved.

On a related note, the General Assembly passed SB 1357 this Spring. It is currently on the Governor's desk awaiting his action. SB 1357, if it becomes law, will alter the enforcement mechanism under Section 31 of the Illinois Environmental Protection Act, and therefore may cause us to revise the ERG at some point in the future.

Hi Bruce,

Could you provide an update in regards to the revised ERG? Region 5 review and approval with modifications IEPA revised ERG on 5/6/11. Where does IEPA stands on the subsequent ERG workplan items, 1) Adopt and Implement and 2) Train all staff working on AFO/CAFO issues on revised ERG? Thanks

We have made the recommended changes to the Inventory Plan. A revised
copy is attached.

Here are comments/updates to the IEPA Enforcement Response Guide and
Inventory Plan. If there are any questions regarding Region 5 comments
please don't hesitate to call or arrange a conference call to further
discuss our changes. If there are no additional questions at this time
these documents, as well the CAFO NPDES Inspection/Evaluation SOP
provided by the Region on March 15, 2011 can be finalized and copies
sent to the Regional. Thanks
